Newport Aesthetics - Hyaluronic Acid - Serum (1 oz.)

Anti-aging serum to plump skin & reduce wrinkles. Immediate results.

MSRP: \$95.00

How to Use

Apply to clean skin - just enough to cover the face (and any other areas you desire - hands, elbows & feet). Once or twice a daily or as directed by our medical professionals at Newport Aesthetics. For topical use only.

Product Details

Newport Aesthetics has created this pure, nourishing serum formulated with fractionated hyaluronic acid to penetrate deep into the dermis to draw moisture in and hold it there - hence skin plumps! A universal booster to any skin care regimen, providing all day moisture retention and skin barrier repair, with each drop, skin appears brighter, firmer and rejuvenated.

Benefits

Moisturizing – Hyaluronic acid (HA) draws moisture to the skin and helps keep it there.

Soothing – HA is great for irritated skin. The serum is fantastic to apply after derma rolling, dry brushing, microdermabrasion or just anytime your skin needs a bit of extra love and care.

Protecting – Though you can barely feel that it is on your skin after it absorbs (other than your skin feeling smoother), the hydrating serum still provides a nice barrier against environmental damage to the skin.

Healing – Supports healing of wounds by promoting growth of new skin cells

Anti-Aging – HA serum helps reduce fine lines in addition to the benefits above, which would also assist with anti-aging skin care.

Various molecular forms of hyaluronic acid (fractionated & high molecular weight) ensure continuous and optimal hydration.

Powerful humectants Sodium PCA and Glycerin bind moisture and help maintain the skin barrier.

Palmitoyl Tripeptide-28 supports healthy collagen production.

Essential Mineral Complex (Zinc PCA and Copper PCA) conditions skin and helps to reduce excess oil.

Paraben-free. Non-comedogenic. Hypoallergenic. Fragrance-free. Gluten-free. Free of artificial dyes.

Key Ingredients

Sodium Hyaluronate, Hydrolyzed Sodium Hyaluronate, Sodium PCA, Glycerin, Palmitoyl Tripeptide-28, Camellia Sinensis (white tea) Extract, Ergothioneine, Glutathione, Zinc PCA, Copper PCA
